## British Values at Marlborough School

Marlborough School has a strong commitment to the following values, based on those of the National Forum for Values in Education:

- *We value ourselves as unique human beings capable of spiritual, moral, intellectual and physical growth and development.*
- *We value others for themselves, not only for what they have or what they can do for us.*
- *We value relationships as fundamental to the development and fulfillment of others, and ourselves and to the good of the community.*
- *We value truth, freedom and justice.*
- *We value love and mutual support, a society in which people care for others and work for the common good.*
- *We value the environment as the basis of life and a source of wonder and inspiration.*

Implicit in these values are the 'British Values' as described by the Government. This chart illustrates some of the explicit ways in which Marlborough School subscribes to 'British Values' and in particular the way in which 'Marlborough Manners', the Code of Behavior to which everyone involved with the school subscribes, underpins our ethos.
